

PROJECT/ACTION TITLE:

Development of an Innovative Decision-Making System

BRIEF DESCRIPTION OF THE PROJECT/ACTION:

Development of an innovative digital tool which:

- Will provide business users with easy-to-use tools (graphical environment) through which they will be able to modify the business logic of any business software system, without the need to involve specialized software engineers.
- Will operate successfully even when the entire business accounting system is based on complex logic that can be frequently varied
- Will have the ability to collaborate with other existing systems by undertaking to be selectively applied to as many business logics as the business user wishes.

PROJECT/ACTION BUDGET: 1,562,430.39 €

EU FUNDED

IMPLEMENTING AGENCY:

Information Society Sole Proprietorship S.A.
